Case No. 1:25-cv-02735-ACR

**DISCOVERY-10: FEDERAL AI
CONTRACTING AND
CLASSIFIED DEPLOYMENT**

INTRODUCTION

The pleading alleges that Plaintiff's federally-funded AI infrastructure — approximately \$800 million in Pentagon CDAO contracts to Anthropic, OpenAI, Google LLC / Alphabet, and xAI (June–July 2025); the GSA-Anthropic partnership offering "Claude for Enterprise and Claude for Government for \$1" federal-wide; Section 20005's \$16 billion DOD AI appropriation under H.R. 1, 119th Congress; classified deployments through Palantir Technologies, Inc.; and the broader \$500-700 billion H.R. 1 appropriations — constitute the financial-structural record against which government defendants' ultra vires coordination with corporate AI defendants is

evaluated under Article I and the Appropriations Clause. (*See* TAC ¶ 73 (Compl. ¶ 82); Memo F, §§ II.D, VII.H, VIII.F; Memo H; App. A; Memo G; Ex. N-23.)

This document is directed to the federal agencies, federal laboratories, and federal contractors whose records are in their exclusive possession. It is not duplicative of DISCOVERY-4 Government, which targets individual government defendants' official and individual-capacity communications; DISCOVERY-10 targets contractual, procurement, and financial-flow records in the custody of federal-agency and contractor institutions.
